

# NANOEDUCATORS QUARTERLY FORUM

*Introducing Nanomedicine  
to Your Students*

Credit: Nano@Stanford

**Thursday,  
Feb. 26, 2026**

**6:30–7:30 p.m. ET**

- ✓ Teacher-led nano lab walkthrough sessions
- ✓ Short informational talks with nanoscience teachers
- ✓ Discussions about cutting-edge nanoscience topics
- ✓ Informal, potluck-style resource sharing

Participants will receive an overview of nanomedicine and discuss classroom ready examples to engage and introduce students to current and future applications of nanomedicine.

## **Presentations on:**

- Nanomedicine, particularly multifunctional polymeric nanomaterials.
- How to make the content accessible to students at all levels by creating engaging lessons and programming.

National Nanotechnology  
Coordinated Infrastructure
